

PRESS RELEASE

CZ presents its 2015 training offer

Among many other activities carried out at the *Instituto de Investigación sobre vehículos, S.A.*, more well-known as **CENTRO ZARAGOZA**, our work involves offering training courses demanded by all professionals, related to the repair of vehicles and road safety.

Suggestions received from more than 28,000 professionals who have trained at CENTRO ZARAGOZA and our own experience in training have resulted in the presentation by CENTRO ZARAGOZA of its new and totally updated **OPEN TRAINING COURSE PROGRAMME**, scheduled for the 1st six months of 2015.

In all, we have programmed 46 on-campus training courses, and 12 online training course, in the different areas: *"Reconstruction of road accidents"*, *"Workshop Management and Organisation"*, *"Evaluation of Material Damages of accident vehicles"*, *"Repair of vehicle bodywork"*, *"Painting vehicles"*, *"Motorbikes"*, *"Industrial Vehicle"*, *"Electric and Hybrid Vehicle"*, *"Electromechanics"*, *Marketing and Human Resources"*, *WITV (MOT) Stations"* and *"Road Safety"*.

You will find much more detailed information about each one of the training activities that we place at the disposal of all the professionals from the sector, for these first six months of 2015, on our website, www.centro-zaragoza.com.

In addition to its plan of scheduled on-campus open courses, CENTRO ZARAGOZA offers the possibility of designing and giving "tailor-made" courses based on the training needs of professionals in the sector, as well as online training through its CZ CAMPUS.

About Centro Zaragoza

CENTRO ZARAGOZA (CZ) is the vehicle research Institute that belongs to 19 insurance entities, which represent approximately 65% of the automobile insurance premiums in Spain and more than 30% in Portugal.

The main objectives of CENTRO ZARAGOZA are: "Research for the management and control of material damage, as well as for the prevention of bodily harm, within vehicle insurance; and the promotion of initiatives to improve Road Safety".
